BILL: _____

2nd STREET SW IMPROVEMENT PROJECT Valle del Oro Refuge

\$1,400,000 is requested for the “2nd Street SW Improvement” Project. The project will improve 2nd Street from Rio Bravo Boulevard to the Valle de Oro Refuge. The improvements consist of widening 2nd Street to three lanes with road improvements, and the construction of a multipurpose trail. The project will provide for better traffic movement of vehicles, bicycles and pedestrians. Additional improvements will include new traffic signalization at 2nd Street and Desert Road and Prosperity Road intersections. The project will require environmental compliance, design and construction. The total project cost is estimated at \$11,600,000. The existing total fund available for design and construction is \$948,230. Once funds are available the County will proceed to appropriately phase the project and begin design services; then proceed to construction.
