SUNPORT BOULEVARD EXTENSION PROJECT

Bernalillo County Public Works Division will be constructing a new roadway extension of Sunport Boulevard west from the I-25 Exit 221 interchange to Broadway Blvd at Woodward Road. The extension of Sunport Boulevard will include a 4 lane roadway with two 5 foot bike lanes, two 6-foot shoulders, and an 18-foot wide center median. In addition, there will be 6-foot wide sidewalk and curb and gutter on either side of the roadway. The project includes signalization for the Sunport/Broadway intersection and Interstate 25 frontage roads at the existing Interstate 25 interchange. The project is a regional priority and will provide much expanded access to Interstate 25 and the Mesa Del Sol development.

The project will be used by everyone in the region and will complete the traffic network in this area for not only drivers, but cyclists and pedestrians where none previously existed as well. Also, an improvement to the intersection of Woodward RD SE and Broadway BLVD SE which is flooded when there is a storm event.

\$500,000.00 is requested to help in the construction of the Sunport Boulevard Extension Project. The Estimate for the project is currently at \$18,500,000 and this request would help us reach that goal.
